

WALL MOUNT INSTALLATION GUIDE

1. IN THE BOX

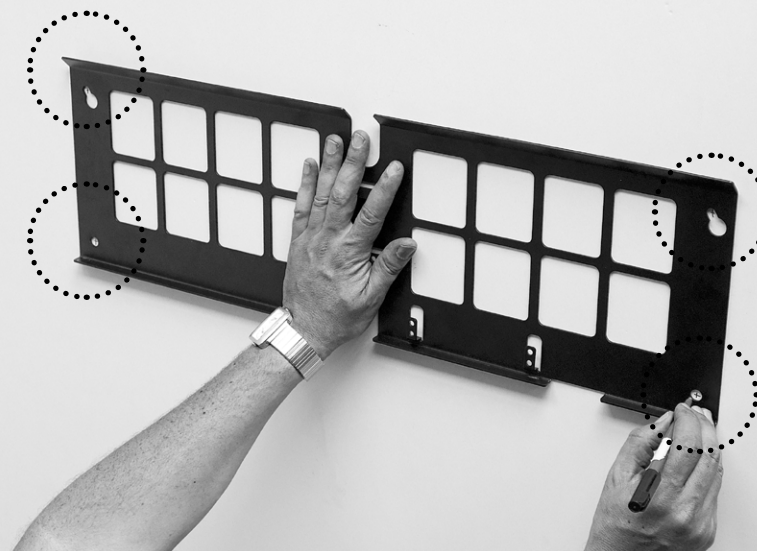

- 1x Wall Mount
- 4x Screws
- 4x Plugs
- 4x Adjustment Washers
- 2x Security Screws

2. MARK THE HOLES

Place the wall mount in the desired position and mark the holes with a pen on the wall.

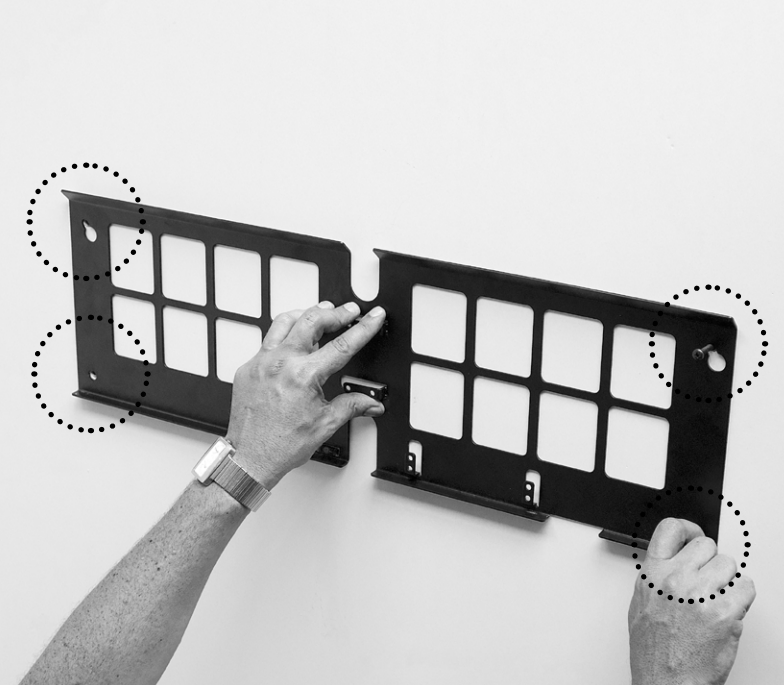

Use the leveller to make sure the wall mount is positioned horizontally.

3. DRILL AND INSERT PLUGS

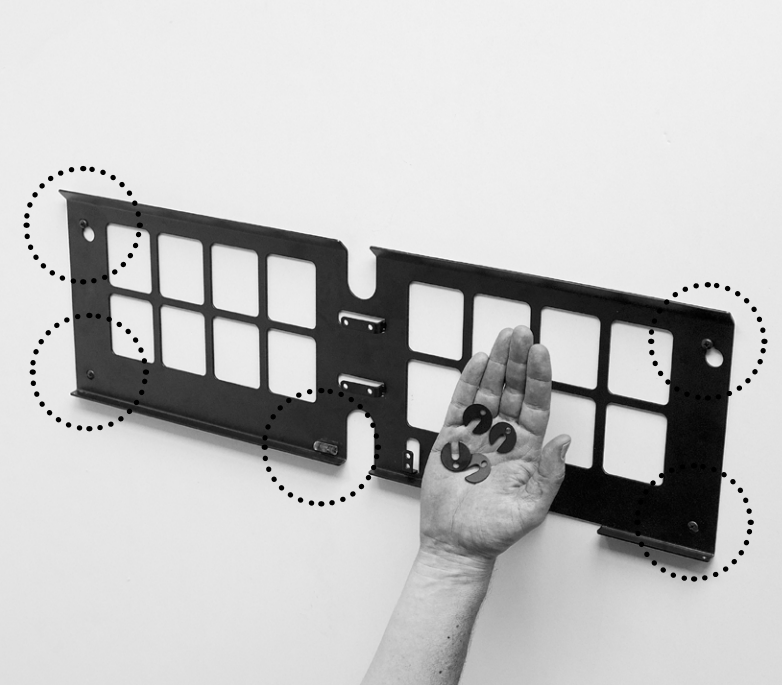

- Drill the four holes with an appropriate Ø8 drill.
- Insert the plugs.

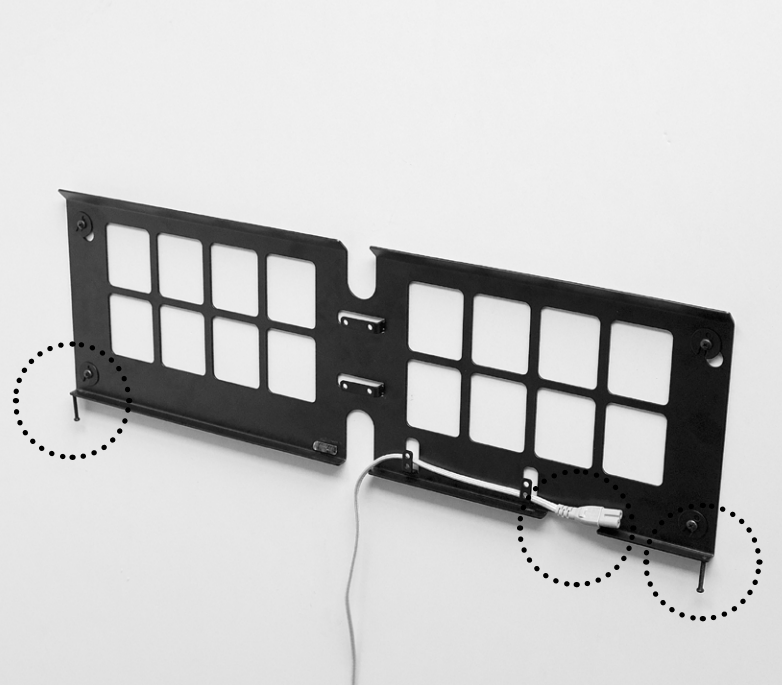

4. POSITION AND SCREW

Place the wall mount and insert the screws with a screwdriver. Leave 2-3 mm of air for the adjustment washers.

5. LEVEL AND ADJUST

- Place the washers between the wall mount and the screws.
- Make sure the wall mount is horizontal.
- Tighten the screws.

6. CABLE AND SECURITY SCREWS

- Place the power cable and other cables in the guides.
- Mount security screws in the bottom but leave them in the outer position.

Tip. Use plastic strips to hold the cables in place.

7. MOUNT LOUNGE

- Lift and place the Lounge.
- Fasten security screws.

Enjoy
