

# WALL MOUNT INSTALLATION GUIDE

## 1. IN THE BOX

- 1x Wall Mount
- 4x Screws
- 4x Universal Wall Plugs
- 4x Adjustment Washers
- 4x Cable-ties
- 2x Security Screws

## 2. MARK THE HOLES

Place the wall mount in the desired position. Use the leveller to make sure the wall mount is positioned horizontally and mark the holes with a pen on the wall.

*Please be sure your wall is properly constructed to carry the weight of the Libratone Lounge.*

## 3. DRILL AND INSERT PLUGS

- Drill the four holes with an appropriate Ø8 drill.
- Insert the plugs.

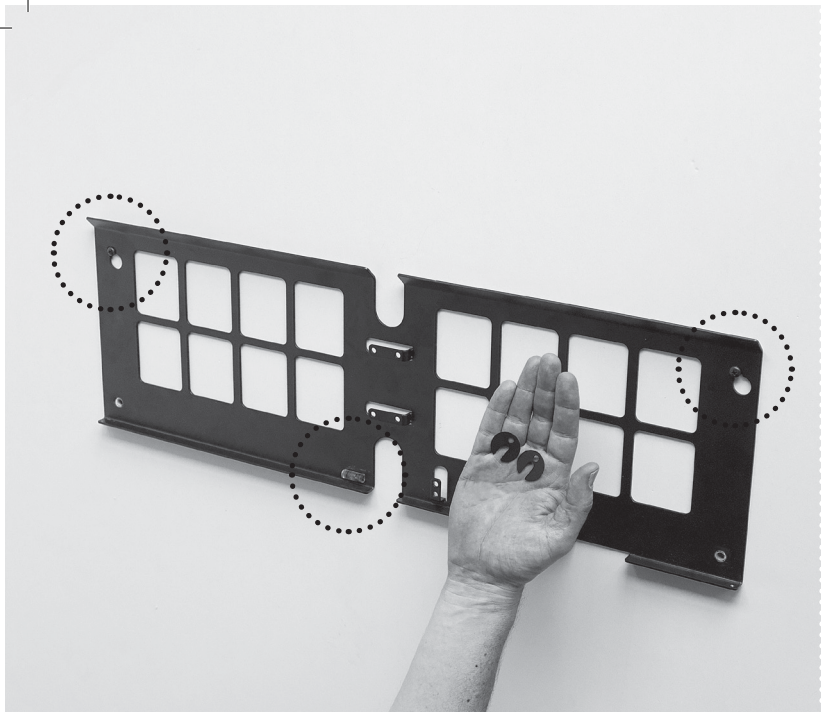

## 4. INSERT UPPER SCREWS

Insert the two upper screws.

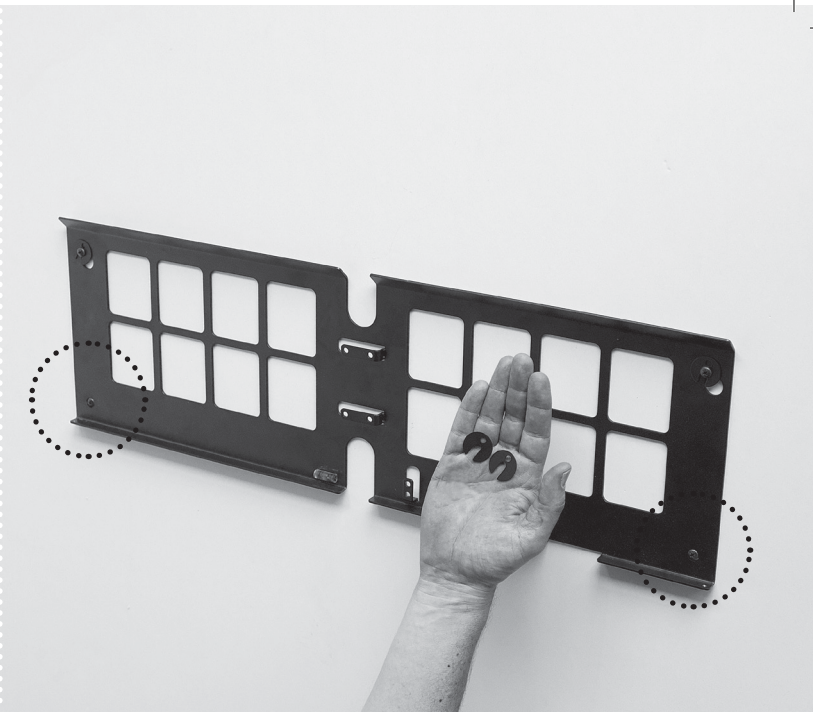

>>>

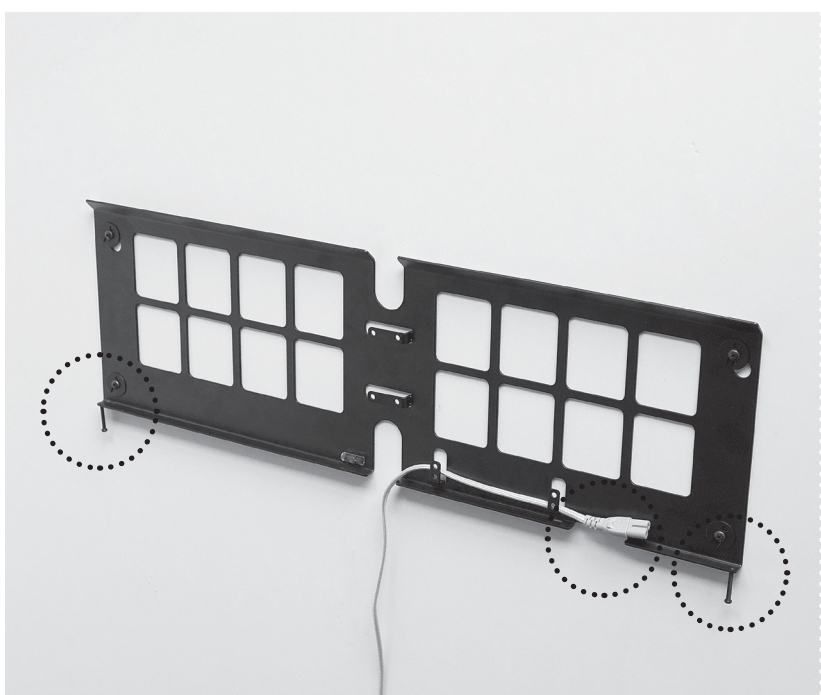

## 5. HANG, LEVEL AND TIGHTEN

- Hang the wall mount on the two screws.
- Place the washers between the wall mount and the upper two screws.
- Use the level to make sure the wall mount is horizontal and tighten the upper two screws.

## 6. INSERT LOWER SCREWS

- Insert the lower screws and the two remaining washers.
- Tighten the lower screws.

## 7. CABLE AND SECURITY SCREWS

- Place the power cable and other cables in the guides.
- Mount security screws in the bottom but leave them in the outer position.
- Use the cable-ties to hold the cables in place.

## 8. MOUNT LOUNGE

- Lift and place the Lounge.
- Fasten security screws.

Enjoy
